o Specialized Server Units & Boardroom Tables	43 - 48
o Specialised Coffee Tables	49 - 51
o Specialised Reception Units	52 - 53
o Specialised Training Tables	53

HERITAGE

Nestled in the heart of the Garden Route you will find an area steeped in old tradition dating back to the 1700's, where the first timber post was created by the Dutch East India Company.

Early woodcutters and their families lived in forest clearings where they evolved into a closely-knit community. The artisans became incredibly skilled in felling, sawing and handling timber.

The utilization of the forest trees led to such industries as furniture and wagon making. By 1910 several large sawmills had been established in the district. Timber for export was transported to coastal ports by ox wagon. Today you will find sawmills with the ultimate in modern wood technology and innovative furniture factories in the Southern Cape. Unique to this area is the age-old technique and skill of manufacturing wood furniture by hand.

We follow the old traditions steeped in the roots of the area, ensuring high quality and standards specializing in modern office furniture trends.

We are a second generation company started back in 1996. Our family run business ensuring that the values of old are still maintained till this day.

We specialises primarily in office furniture for the office and home environments, we have a wide range of product offerings, ranging from standardised basic designs to full bespoke ranges tailored to represent your vision in the office space.

We are proud to announce our latest product range called The Specialized Office Furniture Range.

Offering a fresh look in the office environment combining both wood and metal alloy construction, ensuring a product that is long lasting and of the highest quality, we are proud to give a 5 year guarantee on our range guaranteeing the most important aspect of our business, our clients and their satisfaction.
